O'Neill, Michael

0 minutes 12 seconds0:12

O'Neill, Michael 0 minutes 12 seconds

Fancy meeting you here.

JR

Jensen, Rocio

0 minutes 15 seconds0:15

Jensen, Rocio 0 minutes 15 seconds

Hello, hello. Long time no see you.

O'Neill, Michael

0 minutes 25 seconds0:25

O'Neill, Michael 0 minutes 25 seconds

Okay.

Knievel, Loni

3 minutes 15 seconds3:15

Knievel, Loni 3 minutes 15 seconds

Hello.

Mehta, Romit

3 minutes 21 seconds3:21

Mehta, Romit 3 minutes 21 seconds

Hello!

O'Neill, Michael

3 minutes 23 seconds3:23

O'Neill, Michael 3 minutes 23 seconds

Hello, Loni.

C

ICR CASM 2450 Morag Way 1411

3 minutes 23 seconds3:23

ICR CASM 2450 Morag Way 1411 3 minutes 23 seconds

Yeah.

ICR CASM 2450 Morag Way 1411 3 minutes 25 seconds

Is this a different meeting or intake meeting? Hi everybody, this is the intake meeting.

Knievel, Loni

3 minutes 28 seconds3:28

Knievel, Loni 3 minutes 28 seconds

Intake.

C

ICR CASM 2450 Morag Way 1411

3 minutes 30 seconds3:30

ICR CASM 2450 Morag Way 1411 3 minutes 30 seconds

Ohh, sorry, Loni, I didn't know where I was at speaker, but I didn't say anything, yeah.

O'Neill, Michael

1 hour 3 minutes 32 seconds1:03:32

O'Neill, Michael 1 hour 3 minutes 32 seconds

I would love to volunteer to try to coordinate that workflow, Alek.

C

ICR CASM 2450 Morag Way 1411

1 hour 3 minutes 34 seconds1:03:34

ICR CASM 2450 Morag Way 1411 1 hour 3 minutes 34 seconds

Yeah.

Mehta, Romit

1 hour 3 minutes 38 seconds1:03:38

Mehta, Romit 1 hour 3 minutes 38 seconds

Oh, awesome. If we can have a metadata working group across multiple teams that are doing these different parts of metadata discovery, as well as cataloging and enforcement, at least when we decide destinations for some of these efforts, we can start coalescing around the same platform tools that we have.

Chao, Charles

1 hour 3 minutes 40 seconds1:03:40

Chao, Charles 1 hour 3 minutes 40 seconds

I mean, from...

O'Neill, Michael

1 hour 3 minutes 43 seconds1:03:43

O'Neill, Michael 1 hour 3 minutes 43 seconds

No.

Mehta, Romit

1 hour 4 minutes 1 second1:04:01

Mehta, Romit 1 hour 4 minutes 1 second

that we are already exposing to other teams for some parts of metadata experience, then we can have that become richer and richer.

C

ICR CASM 2450 Morag Way 1411

1 hour 4 minutes 10 seconds1:04:10

ICR CASM 2450 Morag Way 1411 1 hour 4 minutes 10 seconds

Yeah.

Smurthwaite, Sarah

1 hour 4 minutes 10 seconds1:04:10

Smurthwaite, Sarah 1 hour 4 minutes 10 seconds

And set that up with the folks that have brought this conversation up on this call, so...

Mehta, Romit

1 hour 4 minutes 15 seconds1:04:15

Mehta, Romit 1 hour 4 minutes 15 seconds

Yeah.

Weinstein, Howard

1 hour 4 minutes 15 seconds1:04:15

Weinstein, Howard 1 hour 4 minutes 15 seconds

Should we include ODM in this conversation?

C

!CR CASM 2450 Morag Way 1411

1 hour 4 minutes 16 seconds1:04:16

!CR CASM 2450 Morag Way 1411 1 hour 4 minutes 16 seconds

Right.

Knievel, Loni

1 hour 4 minutes 17 seconds1:04:17

Knievel, Loni 1 hour 4 minutes 17 seconds

S.

Smurthwaite, Sarah

1 hour 4 minutes 18 seconds1:04:18

Smurthwaite, Sarah 1 hour 4 minutes 18 seconds
S.

Smurthwaite, Sarah 1 hour 4 minutes 20 seconds
Shurgot.

Weinstein, Howard

1 hour 4 minutes 21 seconds1:04:21

Weinstein, Howard 1 hour 4 minutes 21 seconds
All right, then.

Knievel, Loni

1 hour 4 minutes 23 seconds1:04:23

Knievel, Loni 1 hour 4 minutes 23 seconds

All right, so what do we want to do with this one?

C

ICR CASM 2450 Morag Way 1411

1 hour 4 minutes 24 seconds1:04:24

ICR CASM 2450 Morag Way 1411 1 hour 4 minutes 24 seconds

And then...

Mehta, Romit

1 hour 4 minutes 28 seconds1:04:28

Mehta, Romit 1 hour 4 minutes 28 seconds

Alek, you still have your hand up. You have something?

C

ICR CASM 2450 Morag Way 1411

1 hour 4 minutes 31 seconds1:04:31

ICR CASM 2450 Morag Way 1411 1 hour 4 minutes 31 seconds
No, I just don't know how to put it down. Okay.

Mehta, Romit

1 hour 4 minutes 32 seconds1:04:32

Mehta, Romit 1 hour 4 minutes 32 seconds

Okay, I was going to say that I also like this last three initiatives. I like the ideas on all of those three. This is also we talked and we were joking in the chat about foreshadowing. This is what we exactly talked about in the Alation one, where we need to find a way to automatically catalog.

C

ICR CASM 2450 Morag Way 1411

1 hour 4 minutes 36 seconds1:04:36

ICR CASM 2450 Morag Way 1411 1 hour 4 minutes 36 seconds

I have a question.

ICR CASM 2450 Morag Way 1411 1 hour 4 minutes 38 seconds

The.

ICR CASM 2450 Morag Way 1411 1 hour 4 minutes 46 seconds

Sure.

Mehta, Romit

1 hour 4 minutes 52 seconds1:04:52

Mehta, Romit 1 hour 4 minutes 52 seconds

This is the beginning of that. So if we can run this in a real product or set of products and prove that it works, we can promote that to be more central platform capability that then we can ask all other engineers to do as well so that their products can also get automatically cataloged.

O'Neill, Michael

1 hour 4 minutes 54 seconds1:04:54

O'Neill, Michael 1 hour 4 minutes 54 seconds

Uh-huh.

O'Neill, Michael 1 hour 5 minutes 14 seconds

Yup.

Mehta, Romit

1 hour 5 minutes 14 seconds1:05:14

Mehta, Romit 1 hour 5 minutes 14 seconds

So treat PUF as the beta product where we are testing this. As long as we land those in something like OMS and something like what the relation experience is going to look like, and it's available to the company across the company, I think that makes a lot of sense to me.

C

ICR CASM 2450 Morag Way 1411

1 hour 5 minutes 15 seconds1:05:15

ICR CASM 2450 Morag Way 1411 1 hour 5 minutes 15 seconds

Yeah.

ICR CASM 2450 Morag Way 1411 1 hour 5 minutes 34 seconds

But, yeah, and I think we've gotta along the way, right? We're gonna have to describe, you know, a compliance need, describe a manageability need from the pulse team or whatever, right? Like, we gotta, we gotta be like, get those milestone nuggets defined, so that, like, along the way we go, like...

O'Neill, Michael

1 hour 5 minutes 34 seconds1:05:34

O'Neill, Michael 1 hour 5 minutes 34 seconds

Exactly what I'm thinking, yeah.

C

!CR CASM 2450 Morag Way 1411

1 hour 5 minutes 54 seconds1:05:54

!CR CASM 2450 Morag Way 1411 1 hour 5 minutes 54 seconds

There's this big thing in the future we want to do, but just stuff that's actually quite valuable already, you know.

Mehta, Romit

1 hour 6 minutes1:06:00

Mehta, Romit 1 hour 6 minutes

Yeah.

C

ICR CASM 2450 Morag Way 1411

1 hour 6 minutes 2 seconds1:06:02

ICR CASM 2450 Morag Way 1411 1 hour 6 minutes 2 seconds

Okay.

Mehta, Romit

1 hour 6 minutes 2 seconds1:06:02

Mehta, Romit 1 hour 6 minutes 2 seconds

Yeah.

O'Neill, Michael

1 hour 6 minutes 4 seconds1:06:04

O'Neill, Michael 1 hour 6 minutes 4 seconds

Loni, in terms of capacity, we do have capacity in Data 626 to start working on prototypes and to try to get those to, you know, a.1 release on using playback as our initial, you know, domain that we want to focus on. So Donnie's already started. We're trying to figure out how to get started right now.

C

ICR CASM 2450 Morag Way 1411

1 hour 6 minutes 7 seconds1:06:07

ICR CASM 2450 Morag Way 1411 1 hour 6 minutes 7 seconds

Ms.

Knievel, Loni

1 hour 6 minutes 26 seconds1:06:26

Knievel, Loni 1 hour 6 minutes 26 seconds

Okay, great. So I don't see any capacity plan for this or how it fits into your quarterly plans. And it looks like it's missing some tagging as well in regards to what fleets and squads all need to participate. And then once we know the squads, we can

O'Neill, Michael

1 hour 6 minutes 35 seconds1:06:35

O'Neill, Michael 1 hour 6 minutes 35 seconds

My bad, yep.

Knievel, Loni

1 hour 6 minutes 46 seconds1:06:46

Knievel, Loni 1 hour 6 minutes 46 seconds

use that to build the capacity plans. So if we could follow up with that, that would be great.

O'Neill, Michael

1 hour 6 minutes 53 seconds1:06:53

O'Neill, Michael 1 hour 6 minutes 53 seconds

And by the way, I do want to view this as a, we're getting an L3, but there might be L4s that are coming down the pike. So.

Knievel, Loni

1 hour 7 minutes1:07:00

Knievel, Loni 1 hour 7 minutes

Totally okay. Cool.

Knievel, Loni 1 hour 7 minutes 4 seconds

Thank you.

O'Neill, Michael

1 hour 7 minutes 5 seconds1:07:05

O'Neill, Michael 1 hour 7 minutes 5 seconds

Fantastic. Thank you all so much.

Knievel, Loni

1 hour 7 minutes 6 seconds1:07:06

Knievel, Loni 1 hour 7 minutes 6 seconds

Okay, thanks all.

Mehta, Romit

1 hour 7 minutes 7 seconds1:07:07

Mehta, Romit 1 hour 7 minutes 7 seconds

Thank you.

JR

Jensen, Rocio

1 hour 7 minutes 8 seconds1:07:08

Jensen, Rocio 1 hour 7 minutes 8 seconds

Yeah.
